Notes to Tables

Local Authority Areas

In Tables in which figures are shown for Local Authority Areas, incorporated cities and towns are included in contiguous shires as shown below. For those Local Authority Areas which are partly in Brisbane Statistical Division and partly in Moreton Statistical Division, figures are shown separately for each portion. The portion of the Local Authority Area in Brisbane Statistical Division is marked B, and that in Moreton marked M.

City or Town	*Shire in which included*
Bundaberg	Woongarra
Cairns	Mulgrave
Charters Towers	Dalrymple
Dalby	Wambo
Gladstone	Calliope
Gold Coast	Albert M
Goondiwindi	Waggamba
Gympie	Widgee

Mackay	Pioneer
Maryborough	Burrum
Redcliffe	Pine Rivers B
Rockhampton	Livingstone

Thursday Island	Cook
Toowoomba	Cambooya
Townsville	Thuringowa
Warwick	Glengallan

In the Special Tabulations in Section 6 the Metropolitan Division includes the City of Brisbane, shown separately, while the City of Redcliffe is included with the urban part of Pine Rivers Shire in "Other". The remainder of Pine Rivers Shire is shown under Moreton Statistical Division.

Coverage of Statistics

The particulars given in Divisions 2 to 5 of this Part are confined mainly to operations on rural holdings of one acre or more used for commercial production of livestock and/or crops. Commercial poultry farming is included, however, even though the holding may be less than the stipulated one acre. Livestock kept on reserves etc. by owners who occupy no holding are also included. Particulars relating to beekeeping include all beekeepers with five or more hives irrespective of whether they are occupiers of rural holdings or not.

Period Covered

Data relating to areas sown and production are in general for crops harvested during twelve months ended 31 March. Owing to seasonal differences, however, some variations have been made to this general rule. The actual period covered by the 1966-67 figures is shown for each crop in Table 18 on page 21. The Special Tabulations on Farm Size and Type in Section 6 are for the twelve months ended March 1966.

[1]Each holding has been classified according to the activity which produced 50 per cent or more of the total annual value of production of the holding. The value of production was estimated by applying to crop acreages and numbers of livestock, in 1965-66, unit values derived from average yields or turnovers, and average prices, in a series of preceding years. Where no activity accounted for 50 per cent or more of the production, the holding was classed as multi-purpose. Pig-raising was included with dairying when it accounted for less than 50 per cent of total production. [2]Holdings where the combined production was 75 per cent or more of the total production, and one item at least 25 per cent of the other. [3]Holdings attached to institutions, holdings with beehives only, hatcheries with no commercial production, and all holdings having an ascribed value of production of less than $1,600.
